

ABOUT CHILD LEGACY

CHILD LEGACY INTERNATIONAL, INC IS A CHRISTIAN NON-PROFIT ORGANIZATION WORKING IN AFRICA TO TRANSFORM LIVES BY PROVIDING OPPORTUNITIES THAT BREAK THE GENERATIONAL CYCLE OF POVERTY AND DESPAIR, AND SUPPORT EACH PERSON'S PURSUIT OF THEIR GOD-GIVEN DESTINY

Child Legacy International was founded by Jeff and Karen Rogers in 1987, after years of experience in international aid and relief work led them to realize that meeting immediate needs was not enough to produce lasting change in the developing world. They designed and strategically implemented a Sustainable Program Development Model in rural Zimbabwe, offering healthcare, job training, education, and practical agricultural innovations — all 100% powered by renewable energy.

In 2007, Jeff and Karen Rogers moved to rural Malawi in order to replicate their Sustainable Program Development Model on a larger scale. In less than a decade, CLI's Malawi Campus has earned national recognition for its unique and effective approach to development, bringing real change to one of the poorest and least developed countries in the entire world.

Child Legacy's Impact in Rural Malawi

- Over **435,000** rural patients treated for free, including over **7,300** infants safely delivered with **zero** maternal deaths.
- Over **9.0 million** people provided access to clean water through nationwide well repairs
- Over **100 acres** of organic crops and produce, plus an additional **200 acres** of commercial bamboo and macadamia trees to provide training for local farmers and to promote overall economic growth & sustainability.
- Hundreds trained via professional apprenticeship, plus a scholarship program for degrees in fields critical to the nation's development
- Over **82,000** salvations through church-planting, community outreach, and well repairs
- The first and only Community Hospital and Operating Theaters in the continent's region powered by 100% renewable energy

82,000+ villagers have responded to the gospel since 2008!

11 people from
KUTHAMBO
VILLAGE gave
their lives to the
Lord!

PROBLEMS ENCOUNTERED

The well pad condition was good. The PVC pipes, cylinder, bush bearing, rods and rod centralizers were damaged.

Christian Witness: The scripture teaching included the story from Mark 2:24-30, where Jesus chides the Pharisees for their misunderstanding of the purpose of the Sabbath. The team then prayed as 11 people gave their lives to Jesus Christ! The villagers thanked and praised God for this day!

Community Testimony: The village source of water was the river and it was usually dirty but they had no other option. They had tried to have their pump repaired but were unable to raise enough funds to buy all the spares required. They were extremely thankful to CLI and its donors for helping them. They thanked God for remembering them.

IMPROVEMENTS MADE

- PVC pipes and pump rods, replaced
- New pump and pedestal
- Well purified through chlorination
- Gospel of Jesus Christ shared
- Health and Hygiene taught

2020 Fundraisers: Kilimanjaro, Aconagua, Tri-10 Challenge, Wheels for Water, and Ozark Cycle
